SUMMARY

First-year Computer Science student at USTHB with a strong self-taught background in software development. Primary focus is on **Native Android Development** (Kotlin, Jetpack Compose, MVVM, Room, Retrofit), along with foundational knowledge in web technologies including HTML, CSS, JavaScript, Sass, and PugJS. Passionate about building functional, high-performance applications and eager to contribute to real-world projects and remote teams

PROJECTS

Habit Tracker & Productivity App 2026 – Present

- A production-ready native Android productivity application built to assist users in habit formation and daily goal tracking. The app utilizes **Room Database** for reliable local data persistence, tracking daily streaks, historical logs, and statistics offline. Scheduled background notifications and daily reminders are managed via **WorkManager**, ensuring execution even when the app process is closed. Engineered following the **MVVM Architecture** and employing **Hilt (Dependency Injection)** to manage component lifecycles and enhance testability.

Real-Time Cloud Chat Application 2026 – Present

- **Description:**
  A cloud-connected mobile messaging application enabling users to communicate in real time. The app integrates **Firebase Authentication** for secure account creation and user login sessions. The chat interface is built with **Jetpack Compose**,layouts, and clean architecture state flows.

Islamic Companion 2026 – 2026

- **Description:**
  A native Android application display real-time Islamic data and daily scriptures. Built on the **MVVM Architecture** to ensure clean separation of concerns between UI and business logic, the app features a fully declarative interface built with **Jetpack Compose**. thread operations are seamlessly handled using **Retrofit** and **Kotlin Coroutines & Flow**, guaranteeing a non-blocking UI experience.

EDUCATION

Bachelor's Degree in Computer Science — **University of Sciences and Technology Houari Boumediene (USTHB)** — 2026 – 2029

CERTIFICATIONS

Brainer X | Android App Development Course 2025

Practical hands-on training focusing on Android native development, Kotlin, and modern software architecture.
